CONTENTS.

SERIES B. VOL. XCIV.

PAGE

Address of the President, Sir Charles S. Sherrington, at the Anniversary Meeting, November 30, 1922 ..... [i–xvi]

No. B 656.—August 1, 1922.

The Geometry of Insect Pairing. By C. G. Lamb, M.A., B.Sc., Communicated by Prof. J. S. Gardiner, F.R.S. 1

Experimental Researches on Vegetable Assimilation and Respiration. XV.—The Development of Photosynthetic Activity during Germination of Different Types of Seeds. By G. E. Briggs, Fellow of St. John's College, Cambridge. Communicated by Dr. F. F. Blackman, F.R.S. 12

Experimental Researches on Vegetable Assimilation and Respiration. XVI.—The Characteristics of Subnormal Photosynthetic Activity Resulting from Deficiency of Nutrient Salts. By G. E. Briggs, Fellow of St. John's College, Cambridge. Communicated by Dr. F. F. Blackman, F.R.S. 20

The Progress of Metabolism after Food in Swine. By J. W. Capstick, O.B.E., M.A., D.Sc., Fellow of Trinity College, Cambridge, and T. B. Wood, C.B.E., M.A., F.R.S., Drapers' Professor of Agriculture in the University of Cambridge 35

Electric Current as a Stimulus, with Respect to its Duration and Strength. By Seichi Jinnaka and Ryotaro Azuma. Communicated by Prof. E. H. Starling, F.R.S. 49

Changes of the Electrical Excitability of Amphibian Muscle Fibre, and Discussion of A. V. Hill's Excitation Formula. By Seichi Jinnaka and Ryotaro Azuma. Communicated by Prof. E. H. Starling, F.R.S. 71

Further Note on Acidity of Muscle during Maintained Contraction. By H. E. Roaf. Communicated by Sir C. S. Sherrington, Pres. R.S. 83

No. B 657.—September 1, 1922.

Further Experimental Investigations on the Hypertrophy of the Sexual Glands. By Alexander Lipschütz, M.D., Professor of Physiology, University of Dorpat (in collaboration with Dr. Charles Wagner, Dr. Robert Tamm and Felix Bormann). Communicated by F. H. A. Marshall, F.R.S. 83

PAGE

The Influence of Various Conditions on the Time Relations of Tendon Reflexes in the Human Subject. By Frederick Golla, F.R.C.P.Lond., and Joseph Hettwer, Ph.D., Harvard, U.S.A. Communicated by Sir F. Mott, F.R.S. 92

An Abnormal Relationship of the Electrical to the Mechanical Response in the Ventricles. By J. Crighton Bramwell, M.B., M.R.C.P. Communicated by Prof. A. V. Hill, F.R.S. (Plate 1) 98

Alterations in the Diameter of Erythrocytes during Hæmolysis. By Eric Ponder. Communicated by Sir E. Sharpey Schafer, F.R.S. 102

On the Anaerobic and Aerobic Oxidation of Xanthin and Hypoxanthin by Tissues and by Milk. By E. J. Morgan, C. P. Stewart, and F. G. Hopkins, F.R.S. ... 109

Studies on Enzyme Action. XXIII.—Homo- and Hetero-lytic Enzymes. Note by Henry E. Armstrong, F.R.S. 132

No. B 658.—November 1, 1922.

A Method for the Comparative Study of the Human Skull, and its Application to *Homo sapiens* and *Homo neandertalensis*. By W. J. Sollas, F.R.S. 134

Observations on the Changes seen in Living Cells during Growth and Division. By T. S. P. Strangeways, Lecturer in Special Pathology in the University of Cambridge. Communicated by Mr. W. B. Hardy, Sec.R.S. (Plates 2–5.) 137

Further observations on a Bacteriolytic Element found in Tissues and Secretions. By Alexander Fleming, F.R.C.S., and V. D. Allison, M.B., B.Ch. Communicated by Sir Almroth Wright, F.R.S. (Plate 6.) 142

The Pigmentary Effector System.—II. By Lancelot T. Hogben and Frank R. Winton. Communicated by Prof. E. W. MacBride, LL.D., F.R.S. 151

No. B 659.—December 1, 1922.

Croonian Lecture: On the Mechanism of Heredity. By T. H. Morgan, For.Mem.R.S., Professor of Experimental Zoology in Columbia University (Plates 7 and 8) 162

The Sympathetic Innervation of the Vagina. By J. A. Gunn and K. J. Franklin. Communicated by Sir C. S. Sherrington, Pres.R.S. 197

No. B 660.—January 4, 1923.

Studies on Internal Secretion.—I. The Effect of Pituitary (Anterior Lobe) Injection upon Normal and Thyroidectomised Axolotls. By Lancelot Hogben (Mackinnon Student of the Royal Society. Communicated by Prof. E. W. MacBride, LL.D., F.R.S. 204

On the Relation between Permeability Variation and Plant Movements. By Basiswar Sen, B.Sc., Research Scholar, Bose Institute, Calcutta. Communicated by Sir W. M. Bayliss, F.R.S. 216

PAGE

On the Metabolic Gradient of the Frog's Egg. By H. Graham Cannon, B.A., Lecturer in Zoology, Imperial College of Science, South Kensington. Communicated by Prof. E. W. Macbride, F.R.S. 232

An Inquiry into an Outbreak of Human Trypanosomiasis in a *Glossina morsitans* Belt to the East of Mwanza, Tanganyika Territory. By H. Lyndhurst Duke, M.D., Bacteriologist, Uganda Protectorate. Communicated by Clifford Dobell, F.R.S. 250

No. B 661.—February 3, 1923.

The Oxidation of Reduced Glutathione and other Sulphydryl Compounds. By Malcolm Dixon, B.A., Emmanuel College, and Hubert Erlin Tunnicliffe, B.A., Shuttleworth Student of Gonville and Caius College. Communicated by Prof. F. G. Hopkins, F.R.S. 266

The Oxygen-Dissociation Curve of Blood, and its Thermodynamical Basis. By W. E. L. Brown, M.A., and A. V. Hill, F.R.S. 297

The Coincidence Method for the Wave-Length Measurement of Absorption Bands. By H. Hartridge. Communicated by Prof. J. N. Langley, F.R.S. (Abstract) 335

No. B 662.—March 1, 1923.

The Velocity with which Carbon Monoxide displaces Oxygen from Combination with Hæmoglobin.—Part I. By H. Hartridge and F. J. W. Roughton (George Henry Lewes Student). Communicated by Prof. F. G. Hopkins, F.R.S. 336

Energy Expenditure and Food Requirements of Children at School. By Miss E. M. Bedale, Lawrence Student. Communicated by Prof. E. H. Starling, F.R.S. 368

No. B 663.—April 3, 1923.

The Irradiation of Conditioned Reflexes. By G. V. Anrep. Communicated by Prof. E. H. Starling, F.R.S. 404

On the Existence of an Unidentified Sulphur Grouping in the Protein Molecule. Part I.—On the Denaturation of Proteins. By Leslie J. Harris. Communicated by Prof. F. G. Hopkins, F.R.S. 426

On the Existence of an Unidentified Sulphur Grouping in the Protein Molecule. Part II.—On the Estimation of Cystine in Certain Proteins. By Leslie J. Harris. Communicated by Prof. F. G. Hopkins, F.R.S. 441

The Variation of Arterial Elasticity with Blood Pressure in Man (Part I). By J. Crighton Bramwell, R. J. S. McDowall, and B. A. McSwiney. Communicated by Prof. A. V. Hill, F.R.S. 450

Studies of Iridescent Colour, and the Structure producing it.—II. Mother-of-Pearl. By Lord Rayleigh, F.R.S. (Abstract) 454

The Potential Difference occurring in a Donnan Equilibrium and the Theory of Colloidal Behaviour. By A. V. Hill, F.R.S. (Abstract) 455

PAGE

The Periodic Opacity of Certain Colloids in Progressively Increasing Concentrations of Electrolytes. By J. Holker, D.Sc., M.D. Communicated by Prof. A. V. Hill, F.R.S. (Title only) 455

The Production of Artificial Vowel Sounds. By Sir R. A. S. Paget, Bart. Communicated by Sir W. Bragg, F.R.S. (Title only) 455

OBITUARY NOTICES OF FELLOWS DECEASED.

Sir Alfred Bray Kempe (with portrait) i
Sir John Kirk xi
Thomas Algernon Chapman (with portrait) xxx
Alexander Macalister xxxii
William Gowland (with portrait) xl
Sir Patrick Manson (with portrait) xliii
Charles Louis Alphonse Laveran (with portrait) xlix
